5. Product Description

This product is a recombinant Human UBE2F full length protein (1-185aa) expressed in E.coli. The protein is with GST tag at the N-terminus, which facilitates protein purification, detection and identification. UBE2F, also known as NEDD8 protein ligase UBE2F or NEDD8-conjugating enzyme UBE2F or RING-type E3 NEDD8 transferase UBE2F, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
