5. Product Description

This product is a recombinant Human FCGR3B full length of mature protein protein (17-200aa) expressed in Yeast. The protein is with 6xHis tag at the N-terminus, which facilitates protein purification, detection and identification. FCGR3B, also known as CD16 or FCG3 or CD16b, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
