5. Product Description

This product is a recombinant Human ARL4D full length of mature protein protein (2-201aa) expressed in E.coli. The protein is with 6xHis tag at the C-terminus, which facilitates protein purification, detection and identification. ARL4D, also known as ARF like GTPase 4D or ADP-ribosylation factor-like 4D or ADP ribosylation factor like GTPase 4D, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
