5. Product Description

This product is a recombinant Human PRSS2 full length of mature protein protein (24-247aa) expressed in E.coli. The protein is with 6xHis-SUMO tag at the N-terminus, which facilitates protein purification, detection and identification. PRSS2, also known as TRY2 or TRY8 or TRYP2, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
