

Recombinant Human AES Protein Product Manual

1. Product Basic Information

Product No.: REP06074

Protein Name: Tle Family Member 5, Transcriptional Modulator (AES)

Aliases: TLE family member 5, transcriptional modulator

UniProt ID: Q08117

UniProt Link: <https://www.uniprot.org/uniprotkb/Q08117/entry>

Species Source: Homo sapiens (Human)

Expression System: E.coli

Protein Length: Full Length of Isoform 2 (1-264aa)

Molecular Weight: 56.1kDa

Protein Tag: N-terminal GST-tagged

2. Amino Acid Sequence (1-264aa)

3. Storage Buffer

Liquid Delivery Form: Tris/PBS-based buffer with 5%-50% glycerol. Custom glycerol content is available upon customer request (please specify requirements when placing orders).

Lyophilized Powder Delivery Form: Pre-lyophilization buffer is Tris/PBS-based buffer containing 6% Trehalose.

4. Storage Conditions

Upon receipt, store the product at -20°C or -80°C. It is recommended to aliquot the protein for multiple uses to avoid repeated freeze-thaw cycles, which may cause

5. Product Description

This product is a recombinant Human AES full length of isoform 2 protein (1-264aa) expressed in E.coli. The protein is with GST tag at the N-terminus, which facilitates protein purification, detection and identification. AES, also known as TLE family member 5, transcriptional modulator, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
