5. Product Description

This product is a recombinant Human CSNK2B full length of mature protein protein (2-215aa) expressed in E.coli. The protein is with GST tag at the C-terminus, which facilitates protein purification, detection and identification. CSNK2B, also known as G5A or CK2B or CK2N, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
