5. Product Description

This product is a recombinant Human PFAS partial protein (1064-1302aa) expressed in E.coli. The protein is dual-tagged with 10xHis-SUMO tag at the N-terminus and Myc tag at the C-terminus, which facilitates protein purification, detection and identification. PFAS, also known as PURL or FGAMS or GATD8, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
