

Recombinant Human MET Protein Product Manual

1. Product Basic Information

Product No.: REP07440

Protein Name: Sf Receptor (MET)

Aliases: DA11; HGFR; AUTS9; RCCP2; c-Met; DFNB97; SF receptor; HGF receptor; HGF/SF receptor; proto-oncogene c-Met; scatter factor receptor; tyrosine-protein kinase Met; hepatocyte growth factor receptor; MET ...

UniProt ID: P08581

UniProt Link: <https://www.uniprot.org/uniprotkb/P08581/entry>

Species Source: Homo sapiens (Human)

Expression System: E.coli

Protein Length: Partial (52-562aa(N375S))

Molecular Weight: 63.4 kDa

Protein Tag: N-terminal 6xHis-tagged

2. Amino Acid Sequence (52-562aa(N375S))

3. Storage Buffer

Liquid Delivery Form: Tris-based buffer with 50% glycerol.

Lyophilized Powder Delivery Form: Pre-lyophilization buffer is Tris/PBS-based buffer containing 6% Trehalose.

4. Storage Conditions

Upon receipt, store the product at -20°C or -80°C. It is recommended to aliquot the protein for multiple uses to avoid repeated freeze-thaw cycles, which may cause protein denaturation and activity loss.

5. Product Description

This product is a recombinant Human MET partial protein (52-562aa(N375S)) expressed in E.coli. The protein is with 6xHis tag at the N-terminus, which facilitates protein purification, detection and identification. MET, also known as DA11 or HGFR or AUTS9, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
