

Recombinant Human MYO10 Protein Product Manual

1. Product Basic Information

Product No.: REP07546

Protein Name: Myosin Unconventional Myosin-Unconventional Myosin-10 (MYO10)

Aliases: myosin unconventional myosin-unconventional myosin-10; unconventional myosin-X

UniProt ID: Q9HD67

UniProt Link: <https://www.uniprot.org/uniprotkb/Q9HD67/entry>

Species Source: Homo sapiens (Human)

Expression System: E.coli

Protein Length: Partial (1669-1917aa)

Molecular Weight: 36.2

Protein Tag: N-terminal 10xHis-tagged and C-terminal Myc-tagged

2. Amino Acid Sequence (1669-1917aa)

3. Storage Buffer

Liquid Delivery Form: Tris/PBS-based buffer with 5%-50% glycerol. Custom glycerol content is available upon customer request (please specify requirements when placing orders).

Lyophilized Powder Delivery Form: Pre-lyophilization buffer is Tris/PBS-based buffer containing 6% Trehalose.

4. Storage Conditions

Upon receipt, store the product at -20°C or -80°C. It is recommended to aliquot the

Enlibio Wuhan Enlibio Biotech Co.,Ltd Manuals version5.9
protein for multiple uses to avoid repeated freeze-thaw cycles, which may cause protein denaturation and activity loss.

5. Product Description

This product is a recombinant Human MYO10 partial protein (1669-1917aa) expressed in E.coli. The protein is dual-tagged with 10xHis tag at the N-terminus and Myc tag at the C-terminus, which facilitates protein purification, detection and identification. MYO10, also known as myosin unconventional myosin-unconventional myosin-10 or unconventional myosin-X, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
