5. Product Description

This product is a recombinant Human SLC26A4 partial protein (508-780aa) expressed in E.coli. The protein is with 6xHis tag at the C-terminus, which facilitates protein purification, detection and identification. SLC26A4, also known as EVA or PDS or DFNB4, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
