

# Recombinant Human STMN2 Protein Product Manual

## 1. Product Basic Information

**Product No.:** REP08367

**Protein Name:** Neuron-Specific Growth-Associated Protein (STMN2)

**Aliases:** SCG10; SCGN10; neuron-specific growth-associated protein; superior cervical ganglia, neural specific 10

**UniProt ID:** Q93045

**UniProt Link:** <https://www.uniprot.org/uniprotkb/Q93045/entry>

**Species Source:** Homo sapiens (Human)

**Expression System:** E.coli

**Protein Length:** Full Length (1-179aa)

**Molecular Weight:** 27.7 kDa

**Protein Tag:** C-terminal 6xHis-tagged

## 2. Amino Acid Sequence (1-179aa)

## 3. Storage Buffer

**Liquid Delivery Form:** Tris/PBS-based buffer with 5%-50% glycerol. Custom glycerol content is available upon customer request (please specify requirements when placing orders).

**Lyophilized Powder Delivery Form:** Pre-lyophilization buffer is Tris/PBS-based buffer containing 6% Trehalose.

## 4. Storage Conditions

Upon receipt, store the product at -20°C or -80°C. It is recommended to aliquot the protein for multiple uses to avoid repeated freeze-thaw cycles, which may cause

## 5. Product Description

This product is a recombinant Human STMN2 full length protein (1-179aa) expressed in E.coli. The protein is with 6xHis tag at the C-terminus, which facilitates protein purification, detection and identification. STMN2, also known as SCG10 or SCGN10 or neuron-specific growth-associated protein, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

## 6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
