

Recombinant Human VCAN Protein Product Manual

1. Product Basic Information

Product No.: REP08628

Protein Name: Versican Core Protein (VCAN)

Aliases: WGN; ERVR; GHAP; PG-WGN1; CSPG2; versican; versican core protein; versican proteoglycan; large fibroblast proteoglycan; glial hyaluronate-binding protein; chondroitin sulfate proteoglycan core protein...

UniProt ID: P13611

UniProt Link: <https://www.uniprot.org/uniprotkb/P13611/entry>

Species Source: Homo sapiens (Human)

Expression System: E.coli

Protein Length: Partial (3089-3354aa)

Molecular Weight: 47.6 kDa

Protein Tag: N-terminal 10xHis-B2M-tagged and C-terminal Myc-tagged

2. Amino Acid Sequence (3089-3354aa)

3. Storage Buffer

Liquid Delivery Form: Tris-based buffer with 50% glycerol.

Lyophilized Powder Delivery Form: Pre-lyophilization buffer is Tris/PBS-based buffer containing 6% Trehalose.

4. Storage Conditions

Upon receipt, store the product at -20°C or -80°C. It is recommended to aliquot the protein for multiple uses to avoid repeated freeze-thaw cycles, which may cause

5. Product Description

This product is a recombinant Human VCAN partial protein (3089-3354aa) expressed in E.coli. The protein is dual-tagged with 10xHis-B2M tag at the N-terminus and Myc tag at the C-terminus, which facilitates protein purification, detection and identification. VCAN, also known as WGN or ERVR or GHAP, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
