## 5. Product Description

This product is a recombinant Human PGRMC2 partial protein (67-223aa) expressed in E.coli. The protein is with 6xHis tag at the C-terminus, which facilitates protein purification, detection and identification. PGRMC2, also known as DG6 or PMBP or steroid receptor protein DG6, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
