5. Product Description

This product is a recombinant Human ATP5C1 full length of mature protein protein (26-298aa) expressed in E.coli. The protein is dual-tagged with 10xHis tag at the N-terminus and Myc tag at the C-terminus, which facilitates protein purification, detection and identification. ATP5C1, also known as ATP synthase F1 subunit gamma, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
