5. Product Description

This product is a recombinant Bovine MYL3 full length of mature protein protein (2-199aa) expressed in E.coli. The protein is dual-tagged with 10xHis tag at the N-terminus and myc tag at the C-terminus, which facilitates protein purification, detection and identification. MYL3, also known as CMH8 or VLC1 or VLCI, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
