5. Product Description

This product is a recombinant Human GSTA4 full length protein (1-222aa) expressed in E.coli. The protein is with 6xHis-SUMO tag at the N-terminus, which facilitates protein purification, detection and identification. GSTA4, also known as GTA4 or glutathione S-alkyltransferase A4 or S-(hydroxyalkyl)glutathione lyase A4, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
