5. Product Description

This product is a recombinant Human ARHGDI full length of mature protein protein (2-204aa) expressed in E.coli. The protein is with GST tag at the N-terminus, which facilitates protein purification, detection and identification. ARHGDI, also known as GDIA1 or NPHS8 or RHOGDI, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
