5. Product Description

This product is a recombinant Human MOG partial protein (30-154aa) expressed in Mammalian cell. The protein is with 10xHis tag at the C-terminus, which facilitates protein purification, detection and identification. MOG, also known as BTN6 or BTNL11 or MOGIG2, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
