5. Product Description

This product is a recombinant Human RNF182 partial protein (1-183aa) expressed in E.coli. The protein is with 6xHis tag at the C-terminus, which facilitates protein purification, detection and identification. RNF182, also known as ring finger protein 182 or E3 ubiquitin-protein ligase RNF182 or RING-type E3 ubiquitin transferase RNF182, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
