

Recombinant Human SIRPA Protein Product Manual

1. Product Basic Information

Product No.: REP08232

Protein Name: Myd-1 Antigen (SIRPA)

Aliases: BIT; MFR; P84; MYD1; SIRP; MYD-SHPS1; CD172A; PTPNS1; myd-1 antigen; signal regulatory protein alpha

UniProt ID: P78324

UniProt Link: <https://www.uniprot.org/uniprotkb/P78324/entry>

Species Source: Homo sapiens (Human)

Expression System: Mammalian cell

Protein Length: Partial (31-370aa)

Molecular Weight: 67.4000

Protein Tag: C-terminal hFc1-Myc-tagged

2. Amino Acid Sequence (31-370aa)

3. Storage Buffer

Liquid Delivery Form: Tris/PBS-based buffer with 5%-50% glycerol. Custom glycerol content is available upon customer request (please specify requirements when placing orders).

Lyophilized Powder Delivery Form: Pre-lyophilization buffer is Tris/PBS-based buffer containing 6% Trehalose.

4. Storage Conditions

Upon receipt, store the product at -20°C or -80°C. It is recommended to aliquot the protein for multiple uses to avoid repeated freeze-thaw cycles, which may cause protein denaturation and activity loss.

5. Product Description

This product is a recombinant Human SIRPA partial protein (31-370aa) expressed in Mammalian cell. The protein is with hFc1-Myc tag at the C-terminus, which facilitates protein purification, detection and identification. SIRPA, also known as BIT or MFR or P84, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
