

Recombinant *Aspergillus restrictus* RET Protein Product Manual

1. Product Basic Information

Product No.: REP08037

Protein Name: Ret Proto-Oncogene (RET)

Aliases: PTC; MTC1; HSCR1; MEN2A; MEN2B; CDHF12; CDHR16; RET-ELE1; ret proto-oncogene; proto-oncogene c-Ret; cadherin family member 12; RET receptor tyrosine kinase; rearranged during transfection; cadherin-re...

UniProt ID: P07949

UniProt Link: <https://www.uniprot.org/uniprotkb/P07949/entry>

Species Source: *Aspergillus restrictus*

Expression System: E.coli

Protein Length: Full Length of Mature Protein (28-176aa)

Molecular Weight: 23.9 kDa

Protein Tag: N-terminal 10xHis-tagged and C-terminal Myc-tagged

2. Amino Acid Sequence (28-176aa)

3. Storage Buffer

Liquid Delivery Form: Tris-based buffer with 50% glycerol.

Lyophilized Powder Delivery Form: Pre-lyophilization buffer is Tris/PBS-based buffer containing 6% Trehalose.

4. Storage Conditions

Upon receipt, store the product at -20°C or -80°C. It is recommended to aliquot the

Enlibio Wuhan Enlibio Biotech Co.,Ltd Manuals version5.9
protein for multiple uses to avoid repeated freeze-thaw cycles, which may cause protein denaturation and activity loss.

5. Product Description

This product is a recombinant *Aspergillus restrictus* RET full length of mature protein protein (28-176aa) expressed in *E.coli*. The protein is dual-tagged with 10xHis tag at the N-terminus and Myc tag at the C-terminus, which facilitates protein purification, detection and identification. RET, also known as PTC or MTC1 or HSCR1, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
