

Recombinant Haemophilus influenzae iga Protein Product Manual

1. Product Basic Information

Product No.: REP07190

Protein Name: Cd79A Antigen (Immunoglobulin-Associated Alpha (iga))

Aliases: CD79A antigen (immunoglobulin-associated alpha

UniProt ID: P45385

UniProt Link: <https://www.uniprot.org/uniprotkb/P45385/entry>

Species Source: Haemophilus influenzae

Expression System: E.coli

Protein Length: Partial (26-340aa)

Molecular Weight: 43.2 kDa

Protein Tag: N-terminal 10xHis-tagged and C-terminal Myc-tagged

2. Amino Acid Sequence (26-340aa)

3. Storage Buffer

Liquid Delivery Form: Tris/PBS-based buffer with 5%-50% glycerol. Custom glycerol content is available upon customer request (please specify requirements when placing orders).

Lyophilized Powder Delivery Form: Pre-lyophilization buffer is Tris/PBS-based buffer containing 6% Trehalose.

4. Storage Conditions

Upon receipt, store the product at -20°C or -80°C. It is recommended to aliquot the protein for multiple uses to avoid repeated freeze-thaw cycles, which may cause protein denaturation and activity loss.

5. Product Description

This product is a recombinant Haemophilus influenzae iga partial protein (26-340aa) expressed in E.coli. The protein is dual-tagged with 10xHis tag at the N-terminus and Myc tag at the C-terminus, which facilitates protein purification, detection and identification. iga, also known as CD79A antigen (immunoglobulin-associated alpha, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
