5. Product Description

This product is a recombinant Human RAP2C full length of mature protein protein (1-180aa) expressed in E.coli. The protein is with 6xHis tag at the C-terminus, which facilitates protein purification, detection and identification. RAP2C, also known as small GTPase RAP2C or ras-related protein Rap-2c or RAP2C, member of RAS oncogene family, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
