5. Product Description

This product is a recombinant Human PIEZO1 partial protein (2198-2431aa) expressed in E.coli. The protein is dual-tagged with 10xHis tag at the N-terminus and Myc tag at the C-terminus, which facilitates protein purification, detection and identification. PIEZO1, also known as ER or DHS or Mib, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
