5. Product Description

This product is a recombinant Human PLAUR partial protein (23-303aa) expressed in Mammalian cell. The protein is with 10xHis-Avi tag at the C-terminus, which facilitates protein purification, detection and identification. PLAUR, also known as CD87 or UPAR or URKR, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
