## **5. Product Description**

This product is a recombinant Mouse-ear cress TCTP1 full length protein (1-168aa) expressed in E.coli. The protein is with 6xHis tag at the C-terminus, which facilitates protein purification, detection and identification. TCTP1, also known as translationally-controlled tumor protein homolog, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
