5. Product Description

This product is a recombinant Human ATPAF2 full length of mature protein protein (41-289aa) expressed in E.coli. The protein is with 6xHis tag at the N-terminus, which facilitates protein purification, detection and identification. ATPAF2, also known as ATP12 or ATP12p or LP3663, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
