## 5. Product Description

This product is a recombinant Human RPS4Y1 full length protein (1-263aa) expressed in E.coli. The protein is dual-tagged with 10xHis tag at the N-terminus and Myc tag at the C-terminus, which facilitates protein purification, detection and identification. RPS4Y1, also known as S4 or RPS4Y or ribosomal protein S4Y, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
