5. Product Description

This product is a recombinant Human FCGR3A partial protein (17-208aa (V176F)) expressed in Mammalian cell. The protein is with 10xHis-avi tag at the C-terminus, which facilitates protein purification, detection and identification. FCGR3A, also known as FCG3 or CD16A or FCGR3, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
