

Recombinant Mouse CLEC4A Protein Product Manual

1. Product Basic Information

Product No.: REP06480

Protein Name: C-Type Lectin Ddb27 (CLEC4A)

Aliases: DCIR; LLIR; CD367; DDB27; hDCIR; CLECSF6; HDCGC13P; C-type lectin DDB27; lectin-like immunoreceptor; dendritic cell immunoreceptor

UniProt ID: Q9UMR7

UniProt Link: <https://www.uniprot.org/uniprotkb/Q9UMR7/entry>

Species Source: Mus musculus (Mouse)

Expression System: E.coli

Protein Length: Extracellular Domain (70-238aa)

Molecular Weight: 39.6kDa

Protein Tag: N-terminal 10xHis-SUMO-tagged and C-terminal Myc-tagged

2. Amino Acid Sequence (70-238aa)

3. Storage Buffer

Liquid Delivery Form: Tris/PBS-based buffer with 5%-50% glycerol. Custom glycerol content is available upon customer request (please specify requirements when placing orders).

Lyophilized Powder Delivery Form: Pre-lyophilization buffer is Tris/PBS-based buffer containing 6% Trehalose.

4. Storage Conditions

Upon receipt, store the product at -20°C or -80°C. It is recommended to aliquot the protein for multiple uses to avoid repeated freeze-thaw cycles, which may cause

5. Product Description

This product is a recombinant Mouse CLEC4A extracellular domain protein (70-238aa) expressed in E.coli. The protein is dual-tagged with 10xHis-SUMO tag at the N-terminus and Myc tag at the C-terminus, which facilitates protein purification, detection and identification. CLEC4A, also known as DCIR or LLIR or CD367, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
