

Recombinant Human MMP10 Protein Product Manual

1. Product Basic Information

Product No.: REP07470

Protein Name: Transin Stromelysin-Matrix Metalloprotease 10 (MMP10)

Aliases: SL-STMY2; MMP-10; transin stromelysin-matrix metalloprotease 10; matrix metallopeptidase 10; matrix metalloproteinase-10; matrix metalloproteinase 10 (stromelysin 2

UniProt ID: P09238

UniProt Link: <https://www.uniprot.org/uniprotkb/P09238/entry>

Species Source: Homo sapiens (Human)

Expression System: E.coli

Protein Length: Full Length of Mature Protein (99-476aa)

Molecular Weight: 47.0kDa

Protein Tag: N-terminal 6xHis-tagged

2. Amino Acid Sequence (99-476aa)

3. Storage Buffer

Liquid Delivery Form: Tris/PBS-based buffer with 5%-50% glycerol. Custom glycerol content is available upon customer request (please specify requirements when placing orders).

Lyophilized Powder Delivery Form: Pre-lyophilization buffer is Tris/PBS-based buffer containing 6% Trehalose.

4. Storage Conditions

Upon receipt, store the product at -20°C or -80°C. It is recommended to aliquot the protein for multiple uses to avoid repeated freeze-thaw cycles, which may cause protein denaturation and activity loss.

5. Product Description

This product is a recombinant Human MMP10 full length of mature protein protein (99-476aa) expressed in E.coli. The protein is with 6xHis tag at the N-terminus, which facilitates protein purification, detection and identification. MMP10, also known as SL-STMY2 or MMP-10 or transin stromelysin-matrix metalloprotease 10, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
- This product is only for scientific research use, not for clinical diagnosis, treatment or commercial production purposes.
