5. Product Description

This product is a recombinant Human IL36RN full length protein (1-155aa) expressed in E.coli. The protein is with 6xHis-SUMO tag at the N-terminus, which facilitates protein purification, detection and identification. IL36RN, also known as FIL1 or FIL1D or IL1F5, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
