5. Product Description

This product is a recombinant Human CEACAM7 full length of mature protein protein (36-242aa) expressed in E.coli. The protein is with 6xHis-SUMO tag at the N-terminus, which facilitates protein purification, detection and identification. CEACAM7, also known as CEA cell adhesion molecule carcinoembryonic antigen CGM2 or cell adhesion molecule CEACAM7, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.

6. Notes

- Repeated freezing and thawing of the product is strictly prohibited to ensure protein stability and biological activity.
- For special buffer component requirements, please submit a note when purchasing.
