5. Product Description

This product is a recombinant Human CYC1 full length of mature protein protein (85-325aa) expressed in E.coli. The protein is with GST tag at the N-terminus, which facilitates protein purification, detection and identification. CYC1, also known as UQCR4 or MC3DN6 or cytochrome c1, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
