5. Product Description

This product is a recombinant *Aspergillus giganteus* AFP full length of mature protein protein (44-94aa) expressed in *E.coli*. The protein is with 6xHis-B2M tag at the N-terminus, which facilitates protein purification, detection and identification. AFP, also known as AFPD or FETA or HPAFP, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
