5. Product Description

This product is a recombinant Human RPS6 partial protein (35-229aa) expressed in E.coli. The protein is with 6xHis-GST tag at the N-terminus, which facilitates protein purification, detection and identification. RPS6, also known as S6 or eS6 or phosphoprotein NP33, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
