5. Product Description

This product is a recombinant Bovine IL3 full length of mature protein protein (18-144aa) expressed in E.coli. The protein is with 6xHis tag at the C-terminus, which facilitates protein purification, detection and identification. IL3, also known as IL-MCGF or MULTI-CSF or interleukin interleukin-mast-cell growth factor, is suitable for related in vitro functional assays, protein interaction studies, antibody preparation and other biomedical research applications.
