

Recombinant Human LRR70 Protein

For Research Use Only

1. Basic Product Information

Catalog No.: REP50637

Size: 10ug, 100ug

Protein Name: Leucine-rich repeat-containing protein 70 (Synleurin)

Synonym: LRRC70, UNQ1891/PRO4337

UniProt ID: Q7Z2Q7

UniProt Link: www.uniprot.org/uniprotkb/Q7Z2Q7/entry

Species Source: Human

Expression System: HEK293T eukaryotic cell expression system Sequence

Length: 622 AA

Molecular Weight: 70 KD

Protein Tag: C-terminal His6

2. Amino Acid Sequence

3. Buffer Composition

Liquid format: PBS-based buffer containing 50% glycerol. Glycerol concentration can be customized upon customer request; please state special requirements when placing your order.

Lyophilized format: Buffer before lyophilization is PBS supplemented with 6% trehalose.

4. Storage Conditions

Upon receipt, store the product at -20 °C or -80 °C. Aliquot the product for on-demand use to preserve protein activity and prevent denaturation and inactivation caused by repeated freeze-thaw cycles.

5. Product Description

This product is recombinant Leucine-rich repeat-containing protein 70 (Synleucin) produced using the HEK293T eukaryotic cell expression system. It is suitable for in-vitro functional assays, protein-protein interaction studies, antibody preparation and other biomedical research applications.

Protein Function: Renders cells highly sensitive to the activation by cytokines and lipopolysaccharide (LPS).

Subcellular Localization: Membrane ; Single-pass membrane protein .

6. Notes

- Avoid repeated freeze-thaw cycles to maintain protein stability and biological activity.
- Please specify special buffer-composition requirements at the time of order placement.
- For research use only. Not intended for clinical diagnosis, therapeutic use or commercial manufacturing.
